Russian C1
English B2

Profile

I am a Python backend software developer with 4 years of commercial experience. I am a software engineer specializing in creating clean, maintainable, and scalable backend systems. I prefer to work in a team because the best ideas come from teamwork, but I also have experience working and supporting projects on my own. I enjoy learning new libraries to solve complex problems, and I am currently working with solutions in the field of artificial intelligence and machine learning.

WORKING EXPERIENCE

Sintegrum
MARCH 2025 — PRESENT
MIDDLE PYTHON AI/ML DEVELOPER

dZENcode
MAY 2024 — MARCH 2025
PYTHON DEVELOPER

Sana Plus Group
DECEMBER 2022 — MAY 2024
AI PYTHON ENGINEER

Limanet
MAY 2022 — AUGUST 2022
JUNIOR PYTHON ENGINEER

PROJECTS

Study platform
OCTOBER 2023 — PRESENT

An educational platform for digitizing learning in all types of educational institutions, from schools to universities. It includes electronic journals, homework assignments, teaching materials, etc. (https://college.suitt.edu.ua/journal/)

- Python, Django, PostgresSQL, React

Local ai multitask system
MARCH 2025 — SEPTEMBER 2025

Flask microservice for process AI tasks using local models like Text-to-speech, speech-to-text, image processing, text generation.
